

/// ARTUS interactive is looking for a Front End Developer (m/w) ///

We are planning to reinforce our front end developer team and are looking forward to working with you.

Your to-do list

- Conception and planning of HTML/CSS/Javascript applications and the technical implementation of responsive websites.
- Recognizing trends and using them effectively in your projects.
- Working in a team with project managers, designers and back end developers.

Your profile

- You love working with technology and have amazing skills in HTML5, CSS, JavaScript und PHP.
- You can do responsive web design and Bootstrap blindfolded.
- Teamwork comes naturally for you.
- You really enjoy contributing to good UX design.

Who we are:

ARTUS interactive is an internationally renowned agency for digital brand management based in Frankfurt am Main. We develop online strategies and interactive applications that encompass all digital marketing touch points and bring brands to life. With a great team of about 35 people we work on a national and international level for strong brands such as **Braun, Oral-B, World Vision, Wodka Gorbatschow, Söhnlein Brillant** and many more.

How to join us:

Sounds interesting? We are looking forward to hearing from you! Just send your conventional or extraordinary application to szeissler@artus.com.
